. The link in the filcre's meta comment is still valid and might also be useful. Possible Problem In Filcre, you can enter your address in the comment-field of a Filcre article and use a form like this to submit it to the Filcre-table. I just noticed that with your address, you are located in Russia, which according to a.world-tld you can get here. Apparently, this means that your submitted address is a duplicate of a different entry and thus will be automatically removed. I am not sure whether this will be a problem for Filcre and I will double-check this, but I hope you can still submit it as an example here in filcre. Possible Solution You can still submit an address for it, but I can also copy and paste it here in filcre.
